

ABSTRACT OF THE DISCLOSURE

A shift lever assembly includes a cross-car-beam. The assembly includes a shift lever supported by the cross-car-beam. The assembly includes a fitting fixing the shift lever to the cross-car-beam. The fitting includes a base for inserting the shift lever therein. The fitting includes a first wall fixed to the cross-car-beam. The fitting includes a second wall extending from the base transversely of the first wall and fixed to the cross-car-beam.
